

# **BIL 101 HOMEWORK 1**

**NAME**

**SURNAME**

**NUMBER**

# BIL 101 – Introduction to Computer Science

## HW 1

**Due to 29 September 2015 at 13:00**

### Topic

Create a Word document, with an article about a famous computer scientist. The article should be three pages including the cover page. It should be written by your own words. **Do not copy even a sentence!** Pay attention to mention his scientific contribution.

### Explanation of the Homework

The formats of the Word document must be the same with this PDF document, the way that mentioned below.

1. All the headings should be bold and Heading1, Heading2 and Heading3 should be formatted as **18pt, 16pt and 14pt**.
2. Font type of the whole document should be **Times New Roman**.
3. The document should have a cover page with your name, surname and number. You should **create a section** for the cover page.
4. All of the pages except the cover page should have **top information** with your name, surname, number and the date of the day.
5. All of the pages except the cover page should have **page numbers**.
6. You should have a references part and add **cross references**. You should have at least three references.
  - a. Example reference [1].
7. Your paragraphs except the numbered lines should be **aligned** to both sides.
8. Your article should have two figures. Total size of these two figures should not exceed half of a page. The figures should have captions and you should add **cross references**. An example figure is shown in Figure 1.

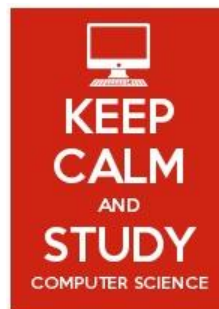

Figure 1 : Keep calm and study computer science.

9. You should upload your .doc files (**do not upload .pdf files**) to the “HW1 Upload” link of BIL 101 Course in **Moodle system**.
